## YE23

### Appendix A – Registration Form

Project Title: \_\_\_\_\_

Name of School/Organization (if applicable): \_\_\_\_\_

Contact Person (Adult Mentor): Name: \_\_\_\_\_

Email: \_\_\_\_\_ Phone: \_\_\_\_\_

Students participating:

#	Name	Contact Email	Contact Phone Number
1			
2			
3			
4			

UN SDGs applicable: \_\_\_\_\_

Please remember to attach:

- 1/ Research Question
- 2/ Abstract

And email this to Jacky Liang at: [hk.ctoes@gmail.com](mailto:hk.ctoes@gmail.com)

Thank-you!

---

Notes to the registration:

**A. Fees:**

- a). Young Engineers Conference: HK\$ 275 per project
- b). Junior CTOES Membership: HK\$ 100 per person per annum
- c). Surcharge for non-member team: HK\$ 150 per project  
(Member-rate is applicable only when all team members are members)

All payments (in HK\$) to be made to the account of the Treasurer for the CTOES Joint Chapter:

Bank: HSBC (HK) Limited  
Account Name: Woo Tai Hoi George  
Account Number: 108-207614-001

**B. Remarks:**

1. Registration is open to Student Member of IEEE Hong Kong, or junior member of the CTOES Joint Chapter.
2. Non-members are also welcomed but will be required to pay a surcharge registration fee.
3. Please contact [hk.ctoes@gmail.com](mailto:hk.ctoes@gmail.com) for the application form to become a junior member.
4. Registration is fully effective only after payment of the registration fee and or surcharge fees.

1. Applicant to the YE 23 Conference will choose a project topic and carried out related investigation and studies. They may select a topic from the list of suggested topics (see Appendix D) or formulate a project based on their own choosing.
2. All projects should refer to one of the United Nations Sustainable Development Goals:

<https://sdgs.un.org/goals>

3. The project may also be chosen from the Lesson Plans provided by IEEE TRY-Engineering: <https://tryengineering.org/teachers/lesson-plans/>

4. Students need complete the Enrollment Form (see Appendix A) which includes a Project Title, the Research Question and an Abstract (see Appendix C for guidelines on Research Question and Abstract).
5. At the end of the project, they will prepare an A0 size poster to report on their results which will be displayed at the YE 23 Conference.
6. They will also give a 15 minutes verbal presentation at the Conference.
7. Applicants who complete and presented their project will receive Certifications recognizing their accomplishments.
8. Qualified projects will be invited to prepare a paper for publication on ResearchGate.

## Appendix C – Research question and Abstract Guideline

This is the question that you hope your work will answer or attempt to answer. It should be one question only. Below are some typical research questions from past projects:

- *How does the renovation, presence and community of Hong Kong International School impact the local fauna?*
- *Which popular beach in Hong Kong has the worst polluted water?*
- *Does the Hong Kong Power Station emissions meet the World Health Organization pollution recommendations?*
- *Does Zinc oxide make a good semi-conductor?*

### Resources (optional)

You may add a short section to list out the papers, notes and ideas that have led up to the research question. This is optional but may be added if the question needs some clarification or basis. Below are some resources listings:

- <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3136027/>
- *The Secret of Nikola Tesla, a 1980 biographical film starring [Orson Welles](#) as J. P. Morgan.*

### Abstract Guide:

The abstract submitted with the Application Form can be without any results and should be less than 300 words. For Abstracts with results, the limit is 500 words.
